SMX Convention Center Manila,
Philippines

Hosted by:

www.philmarine.com

Supported by:

Metro Manila Shipyard Association, Inc.

Organized by:

Fireworks Trade Exhibitions & Conference Philippines, Inc.

ABOUT THE EVENT

The 4th edition of PHILIPPINES MARINE 2017, SHIPBUILD PHILIPPINES 2017 and OFFSHORE PHILIPPINES 2017 is the only specialized Shipbuilding and Maritime event in Philippines that brings together an international congregation of shipbuilding companies, maritime companies and also its supporting industries gathered in the capital of Manila, to showcase the latest developments in the shipbuilding and maritime industry and to improve the current shipbuilding technology and equipment to help maintain Philippines current status as the World's #4 largest shipbuilding industry.

Highlights Of Philippines Marine 2017 Co-Located With, Shipbuild Philippines and Offshore Philippines

- Increase in exhibition space and more international pavilions
- An international maritime conference entitled: Philippines International Marine Conference (PIMAC) 2017 which is expected to attract more than 300 international delegates.
- More promotional roadshows in the main maritime areas of Philippines prior to the event.
- 3 Days of Technology Presentation

FACTS & DEVELOPMENT :

- "The Department of Trade and Industry (DTI) will promote the Philippines — currently the fourth largest shipbuilder in the world - as the manufacturing hub of roll on-roll of or small vessels for the Asian market, according to Adrian Cristobal Jr., secretary of DTI."
- The arrival of foreign shipbuilders in the Philippines propelled the export growth of Philippine-made ships in the international market. After being recognized as the fifth largest shipbuilder in the world, shipyards established in the Philippines are now building more ships of larger tonnage capacities like bulk carriers, container ships and passenger ferries. The construction of 180,000-DWT commercial ship by Hanjin Heavy Industries Corporation, a South Korean shipbuilding giant, shows that the Philippines can really build world-class ocean-going vessels.
- Available slot and a growing diverse range of products on offer have propelled the Philippines to the top of the global shipbuilding leaderboard for the first time. The Southeast Asian archipelago beat South Korea into top spot for order intakes for April, according to Clarkson Research. The Philippine yards won newbuildings of 590,000 cgt, followed by Korea with 530,000 cgt, China taking 290,000 cgt and Japan
